FAN ONBOARDING GUIDE

Join your artist on FanzPro

Share what you already love - earn a cut of every sale. Free, always.

Start here: https://fanzpro.com/fan-onboarding-guide

Signing up through that link is what credits your sales to your artist. It takes about 10 minutes and costs nothing.

What to have in hand

- [ ] **An email address you actually check**
  This is where sale alerts and payout notices land.
- [ ] **Your phone**
  Used for sign-in codes and (optional) text alerts when you earn.
- [ ] **Your social handles**
  TikTok, Instagram, YouTube - wherever you already post.
- [ ] **Legal name, address and SSN/ITIN (only before your first cash-out)**
  For the W-9 tax form. Only required before you cash out.
- [ ] **A payout destination (only before your first cash-out)**
  Bank account, PayPal, Venmo or Cash App.
- [ ] **About 10 minutes**
  Signing up and grabbing your first link takes far less.

Five steps, start to earning

1. ### Sign up
   Tap the big button on this page and create a free fan account. Coming in through your artist's button is what links you to them.
   Done when: You're signed in and looking at your fan dashboard.

2. ### Follow your artist
   Find your artist in your dashboard and follow them. That unlocks their merch, shows and releases for you to promote.
   Done when: your artist shows up in your "Artists" list.

3. ### Grab your link
   Pick anything - a shirt, a ticket, a release, or the whole page - and hit Share. FanzPro gives you your own tracked link.
   Done when: Your link is copied and saved under "Links".

4 **Share it**

Post it in your bio, stories, group chats, comments - anywhere you'd normally hype the music. Talk like you, not like an ad.

Done when: Your link is out in at least two places.

5 **Get paid**

When someone buys through your link, your commission is logged automatically. Add your W-9 and payout method, and cash out once you hit $50.

Done when: Money shows in your Earnings, and your payout method is set.

A real example

- A fan buys a $45 hoodie through your link
- You earn 15% - $6.75 - credited the moment the sale clears
- Ten hoodies over a tour run = $67.50, for links you'd have shared anyway

On merch you earn 15% of the item price. Tickets and downloads have their own rates. Nothing costs you a cent.

Quick answers

Does it cost anything?

No. Creating a fan account and sharing links is completely free, forever.

When do I get paid?

Earnings mature 30 days after the sale (that's the refund window). Once your matured balance hits $50, you can cash out.

What if nobody buys?

Then nothing happens - you lose nothing. Most fans see their first sale after sharing to a few different places.

Do I need a big following?

No. Small, real audiences convert better than big, cold ones. A group chat works.
